Re: Rezoning request.

Background:

This rezoning request is for a portion of the property located at 6250 Paul Boone Road to be rezoned to R-1 from its current classification of R-2. This property is identified on tax map 126 and parcel 079.00. The rezoning would be for the Southern 2/3 of this property, which comes out to approximately 31 acres of this 45 acre tract.

The property that abuts this property along the Western and Southern borders is currently zoned R-1, so this rezoning would be a continuation of the R-1 zone. Based on a site visit and a slope analysis the average slope for these 31 acres is less than 30%, which normally defines the R-2 zone. The primary differences in the R-1 and R-2 zone are density and minimum lot size. The R-2 has an overall density of one dwelling unit per 5 acres versus 1.2 dwelling units per acre in the R-1 zone. The minimum lot size in the R-2 is 5 acres versus 30,000 square feet in the R-1 zone. The applicant is primarily interested in the benefit from the smaller lot sizes if this rezoning is approved.

Below you will find a map showing the slopes with 40' contour intervals taken from the TVA quad map. The second map is the zoning map that reflects the proposed changes.

Biographical Sketch Sharon Hannum

Sharon Hannum was born to Robert and June Hannum in Blount County, Tennessee and was educated at Hale Elementary, Maryville Jr. High and Maryville High School. She is a graduate of the Maryville High School class of 1969. She attended Draughon's Business College where she attained an Associates Degree in Business Administration.

Sharon spent seven years as an employee of the Carborundum Company, Pollution Control Division and while working as a Marketing/PR Coordinator, received a phone call from The Aluminum Company of America, now known as Alcoa, Inc. and formerly known as "The Plant", recruiting her to employment at Alcoa. Sharon is currently retired from Alcoa, Inc. with 30 years of service. Sharon began her career as a Unit Supervisor in the North Plant Ingot Department. She was recruited especially for this role, as there were no women in this traditionally male dominated position. It is from this division that she retired as an Area Coordinator.

Critical Needs Request for Funding

Program Name: Blount County Adult Education

County: Blount County

Supervisor Name: Carol Ergenbright

Critical needs that cannot be met with existing budget:

Due to budget cuts this year, we were unable to fund the following critical needs with our existing budget.

- **Copier rental and copy paper/ supplies: Copier \$2000; paper and supplies \$1,600**
- **Window blinds: \$1,200**
- **Funds for local staff development: \$1,075**
- **Adequate hours for data entry personnel: \$4,680**
- **Instructional hours for young adult class: \$2,015**

Justification for request of funds:

- **Copier and paper/supplies:** Use of a copier and adequate copy paper is a necessity for both instruction and documentation. In order to adequately use the State AE Curriculum, instructors need to print out practice exercises for classwork and homework. We also need to copy orientation materials and recruitment fliers.
- **Window blinds:** We lack window blinds in three classrooms (12 windows). This is not a major problem when instruction is traditional paper and pencil, but the glare from the sun interferes with viewing Power Point presentations. In order to use this technology effectively, we need window blinds. To conform with fire codes, the blinds must be metal and fit the windows properly.
- **Funds for local staff development:** Several of our teachers are not comfortable with PowerPoint and the state curriculum. We need to have local staff development opportunities that would address their concerns and help them make the transition. We need a total of 5 hours for our 10 part time instructors to work together to learn the skills and plan how to incorporate them into our curriculum. We need 3 hours for our paraprofessionals to develop and coordinate processes to ensure the smooth flow of data.
- **Additional hours for data entry:** We are currently behind in our data entry due to personal health issues and technology problems. Our part-time administrative assistants also have additional program responsibilities that help our program with intake, GED applications, and additional required documentation. Additional hours to focus on CMATS data entry would be a tremendous help in enabling them to "catch up" and establish a systemic means of accomplishing their varied tasks.
- **Instructional hours for Young Adult Class:** Almost 1/3 (56) of our current students (170) are 18 years old or younger. To meet the needs of those who are

under 18 years old, we have a Young Adult GED class. Due to budget cuts, we eliminated 4 hrs./week from this class. Due to increased need, we need to restore that instructional time. The additional hours will enable us to provide leveled instruction to these students.

Expected Outcomes/Results if funded:

- **Copier and Paper**
 - State Curriculum will be utilized as primary instructional resource
 - Program Information, including orientation materials, syllabus, class schedule, etc. will be readily available for students
 - Homework assignments will be available for students
 - Increased enrollment as a result of fliers distributed
- **Blinds**
 - More effective use of PowerPoint in both Orientation and Instruction
- **Funds for local staff development**
 - Teachers would utilize State Curriculum as primary instructional resource.
 - Teachers would integrate Power Point and other technology into classroom instruction
- **Data entry hours**
 - Data would be entered within 10 days per state standard
 - Data entry would be accurate
 - Program operations would run smoother
- **Instructional hours for young adult class**
 - Young adult class (under 18 years old) would receive needed instruction
 - Leveled instruction would be provided to young adults
 - Increased student progress and increased GED attainment

Re: Rezoning request.

Background:

This rezoning request is for a portion of the property located at 6250 Paul Boone Road to be rezoned to R-1 from its current classification of R-2. This property is identified on tax map 126 and parcel 079.00. The rezoning would be for the Southern 2/3 of this property, which comes out to approximately 31 acres of this 45 acre tract.

The property that abuts this property along the Western and Southern borders is currently zoned R-1, so this rezoning would be a continuation of the R-1 zone. Based on a site visit and a slope analysis the average slope for these 31 acres is less than 30%, which normally defines the R-2 zone. The primary differences in the R-1 and R-2 zone are density and minimum lot size. The R-2 has an overall density of one dwelling unit per 5 acres versus 1.2 dwelling units per acre in the R-1 zone. The minimum lot size in the R-2 is 5 acres versus 30,000 square feet in the R-1 zone. The applicant is primarily interested in the benefit from the smaller lot sizes if this rezoning is approved.

Below you will find a map showing the slopes with 40' contour intervals taken from the TVA quad map. The second map is the zoning map that reflects the proposed changes.
