Memo

To: Blount County Budget Committee
From: Randy Vineyard 
Date: September 8, 2014
Re: Mixed Drink Tax

There has been an inconsistency across the state with the handling of Mixed Drink Tax revenues. CTAS performed an analysis of the collections as reported by the State Department of Revenue dating from 1980 to the present.

The analysis illustrated that Blount County received \$90,587 in Mixed Drink Tax that had not been distributed to education for the period of 1980-1992.

Because of this, we are requesting these budget amendments that will immediately address Blount County School, Alcoa, and Maryville's schools liabilities. The numbers provided by CTAS have been reviewed and accepted; we also determined in this review which funds were originally credited with the tax in full (i.e., Highway and General County). CTAS advised that the fund that originally received the tax is the fund that must pay back any amount due; also, they advised us to use the applicable ADA% for each year and if older years were not available, use the closest year for that purpose. In addition, the Comptroller's office has approved the use of Contributions line items for both the appropriation and estimated revenue which will not affect Maintenance of Effort Standards.

Bottom line, Highway (131) and General County (101) will show an appropriation increase for contributions expense as a use of fund balance for their portions; General Purpose Schools will show an estimated contribution revenue which will reduce their use of fund balance.

If you have any questions, please let me know.

Thank you.
