Re: Employee Reimbursements

As a matter of disclosure and update, I want to make you aware that we are changing the mode of payment for employee reimbursements. Ongoing employee reimbursement items include mileage/meals, clothing, and tuition but may include other miscellaneous items as well. Currently they are processed through Accounts Payable via the purchase order/payment authorization process with a hard copy check output. Starting January 1, they will be paid via direct deposit with employee paychecks as non-taxable adjustments.

Reasons for this move include:

1. All employee related items should run through payroll for FLSA purposes, etc.
2. Efficiency - fewer hands touching the process overall; this also brings us into sync with more current payroll procedures.
3. This is the next planned step in our electronic payments initiative.

This change has been discussed with the Comptroller's office and they raise no objections.

Thank you; please call if any questions.

RESOLUTION NO. 15-01-002

SPONSORED BY COMMISSIONERS THOMAS COLE AND DODD CROWE

A RESOLUTION BY THE BLOUNT COUNTY COMMISSION PURSUANT TO TENNESSEE CODE ANNOTATED SECTION 54-10-216 TO CLOSE AND VACATE THE ROAD BED AND RIGHT-OF-WAY OF TOMMY BAKER RD, A COUNTY MAINTAINED ROAD LOCATED IN BLOUNT COUNTY, TENNESSEE

WHEREAS, the legislative body of the County has the authority, under Tennessee Code Annotated Section 54-10-216, to close existing roads and abandon right-of-ways; and

WHEREAS, Tommy Baker Rd. is listed on the "Official County Road List" and is approximately 528' long with a 12' wide gravel road bed and 15' of right-of-way; and

WHEREAS, the Maryville Planning Commission and Highway Superintendent received a request to abandon the existing road bed and right-of-way of Tommy Baker Rd., from the owner of said property located on each side of Tommy Baker Rd. and being referenced on Tax Map 056, Parcel 109.01; and

WHEREAS, the requesting property owner is the only interested property owner and no further notice is required; and

WHEREAS, the Maryville Planning Commission on Dec 15 2014, reviewed this matter, including the recommendation of the County Highway Superintendent, and based on its investigation has determined that, in its opinion, the closing of said right-of-way will not adversely affect any property owners or the present or future function of the County's roadway system, and recommends the closure of said road bed and right-of-way; and

WHEREAS, the County Commission feels the closure of the right-of-way is not detrimental to the community or to the present or future function of the County roadway system.

NOW THEREFORE, BE IT RESOLVED by the Blount County Commissioners assembled in regular session at Maryville, Tennessee, on this 15th day of January, 2015, that Tommy Baker Rd. is hereby closed, with any interest the County has in the right-of-way being hereby relinquished as provided by law.

BE IT FURTHER RESOLVED that although the only legal requirement of the County Commission is to adopt a resolution closing the described right-of-way, upon the request of adjacent landowner, and upon review by the County Attorney and a determination having been made in the attorney's opinion, the execution of a Quitclaim Deed evidencing the release and conveyance of any interest the County might have in the afore described right-of-way would not adversely affect the rights of any property owners, would further protect the County from potential liability and restore said property to the tax roll, the Blount County Mayor is hereby authorized to execute a Quitclaim Deed in favor of the applicant for the right-of-way (or the portion thereof) hereby authorized to be closed, upon the payment of any fees and expenses involved in deeding the property to the applicant.

BE IT FURTHER RESOLVED THAT THIS RESOLUTION SHALL TAKE EFFECT IMMEDIATELY, THE PUBLIC WELFARE REQUIRING IT.

That preamble of Section 7.18 be amended to read as follows:

The purpose of this section is to provide opportunities for quality designed commercial campgrounds and recreational vehicle parks that are properly located in the community in relation to concentration of tourism activities, and where street access and capacity and other infrastructure are favorable for such development. In order to create a desirable recreational environment and protect the public health, safety, and welfare, site plans are required for all new commercial campgrounds and recreational vehicle parks. The provisions of this section do not apply to pre-existing non-conforming campgrounds and recreation vehicle parks under provisions for non-conforming uses in state statutes, and under provisions for non-conforming (grandfathered) uses in other sections of this Zoning Resolution. A commercial campground and recreational vehicle park shall meet the following regulations:

5. Recommendation to amend the Zoning Resolution Section 7.18.2.C setting ratio of camp worker campsites that may be allowed.

Recommended by the Planning Commission by unanimous vote of whole membership on December 22, 2014. For setting of public hearing.

7. Recommendation to amend the Zoning Resolution Section 7.18.2.B clarifying limits of stay in a campground or RV park.

Recommended by the Planning Commission by unanimous vote of whole membership on December 22, 2014. For setting of public hearing.

A Resolution to amend the Zoning Resolution of Blount County, Tennessee Section 7.18.2.B clarifying limits of stay in a campground or RV park.

That Section 7.18.2.B main paragraph be deleted, with the following wording placed therein:

~~A recreational vehicle shall not remain in a recreational vehicle park for more than sixty (60) consecutive days in any three hundred sixty five (365) day period except:~~ Any occupant within the campground or RV Park, including RV sites, tent sites and cabins, shall not remain for more than sixty (60) days in any three-hundred-sixty-five (365) day period, except:

8. Amendment of the Subdivision Regulations concerning setbacks from private easements.

This item comes for direct action. State statutes require action by the County Commission for rules on private easements as follows:

TCA 3-3-411 (3)(A) The lot fronts upon a permanent easement which conforms to all rules, regulations and specifications applicable to the permanent easement of the planning commission or other department, division or agency of the county; **provided, that such rules, regulations, and specifications governing permanent easements shall not take effect until such rules, regulations, and specifications are approved by the county legislative body in a resolution by a two-thirds (2/3) vote;**

At its December 22, 2014 meeting, the Planning Commission held public hearing and amended the Subdivision Regulations by unanimous vote to read as follows:

6.04.1(b) The minimum depths of building setback lines for lots platted for all purposes shall be as follows:

1) Subject to the additional requirements for corner lots in Subsection 4 below, the setback distance from each adjoining public or private road or common driveway easement to the building setback line shall be as follows:

For public road right-of-ways (ROW) as classified in the Major Road Plan

Principal Arterial	60 feet
Major Arterial	40 feet
Other public roads	30 feet

For private roads and common driveways

From private road easement or ROW line 30 feet

From common driveway easement line 20 feet

The Planning Commission may approve a lesser distance where a wall, high fence, or other substantial separation is included in the platted improvements to the subdivision adjoining an arterial or collector street, provided that no infringement is made upon sight lines at intersections established by Subsection 4 below.

The underlined and bold text of the amendment above applies to private easements (private roads and common driveways). Being rules governing permanent easements, the underlined and bold text needs approval by a 2/3 vote of the County Commission to become effective. NOTE: This comes for direct action without need for specially published public hearing.

REPORT ON OTHER ITEMS CONSIDERED BY THE PLANING COMMISSION – No action required by County Commission.

At its December 22, 2014 meeting, the Planning Commission also considered several other items relating to recently passed zoning regulations for campground and RV parks. The following is a report by issue.

1. Duration of occupancy – how long a campground site/RV site/cabin site can be occupied continuously – is the present 60 days too restrictive? The 60 day limit was the result of considerable discussion in the Planning Commission, and was a compromise of divergent opinion. Discussion noted that any RV could move to another campground to extend stay in Blount County. A residual concern was the time period in which the 60 days would run, which was a full 365 day year. Recommendation of no change from present 60 day limit.

2. 18 feet of pavement criteria (too small) – is the minimum access requirement on existing roads too narrow to accommodate large RV units? This standard comes from application of same standard in the Subdivision Regulations, and was subject of extensive research and discussion when the Subdivision Regulations were amended. Recommend no change.

3. Impact on environment and residential homes – concern about the impact of campgrounds on surrounding environment and surrounding residential homes. There are provisions for setbacks and buffering that are similar to those applied for any commercial use. Recommend no change. (see also 4 below)

4. Closeness to existing residential homes – concern that the setback and buffering requirements may not protect existing residential homes from adverse impact. The setback provisions for the R-1 zone and commercial use would still be applied, but could be amended to greater standard and be made more explicit. **Under consideration** for further review and possible recommendation is a proposal to increase setback from existing residential uses to 40 feet.

5. Enforcement and penalties for non-compliance – concern that enforcement and penalties addressed generally in the Zoning Regulations and State Statutes may not be adequate. This is generally not a subject of direct regulation. Recommend referral for legal advice on the range of options open for enforcement and fines under provisions of law and state statutes.

6. Legal liability – concern that allowing or approving new campgrounds on county roads could lead to increased liability to the County. Generally, if due diligence in application of reasonable standards is followed in approval of any use, liability will not accrue. For any further concern, recommend referral for legal advice.

Commissioner Tona Monroe
Blount County Commission

Dear Commissioner Monroe,

Yes, throw my hat into the ring! I would be thrilled to be appointed to the Jail Inspection Committee. As we discussed, the county needs concerned citizens to inspect and examine the county jail monthly, as well as reporting to the Commission the state and condition of the prisoners and the jail.

Thank you for the consideration to nominate me to this position.

Best regards,

Nancy B. McEntee, PhD
